

How to store your files on Data Centre or on a cloud for free using your computer

Following are some softwares which can be used to store your files on a data centre for free which is also called free cloud storage

- Microsoft OneDrive (available with Windows)
- MegaSync (www.mega.io)
- Box Drive (www.box.com)
- Proton Drive ([Download Proton Drive for Windows, Android, macOS or iOS | Proton](#))

Mega Sync allows you to synchronize multiple folders
