

Connectify (Software to make your laptop into a Wifi Hotspot and to increase wifi speed) Handbook

Raman Deep Singh

Connectify offers two softwares

- Connectify Hotspot
- Connectify Speedify

These softwares can be downloaded from <http://www.connectify.com>

Connectify Hotspot is a software that can be used to convert your laptop into a wifi hotspot.

Hotspot means a wifi connection.

Connectify Hotspot converts a mobile broadband connection or an existing wifi connection into a wifi hotspot.

Below is the screenshot of Connectify Hotspot

Connectify Speedify

Connectify Speedify increases your wifi speed by accumulating all the speed from your wifi connection, phone internet connection, mobile broadband internet connection and your ethernet internet connection into a single wifi connection.
