

How to Send SMS in Java using Vonage SMS Services ?

Vonage is a paid service.

Vonage allows you to have free trial version also.

Website for vonage is <http://www.vonage.com>

Following is the code

```
import com.vonage.client.*;
import com.vonage.client.messages.*;
import com.vonage.client.messages.sms.*;

void main() {
    var client = VonageClient.builder().apiKey("a1b2c3d4").apiSecret("0123456789Abcdef").build();
    client.getMessagesClient().sendMessage(SmsTextRequest.builder().from("Vonage
Java").to("447418360119").text("Hello, World!").build());
}
```
